PROFESSIONAL FOCUS

Full-stack software engineering role where broad experience in C#, .NET, JavaScript, React, and databases will build reliable, user-friendly solutions in a dynamic, evolving work environment.

PROFESSIONAL PROFILE

- Full-stack software engineer with **3+ years of experience** building responsive web applications across fintech, retail, and technology domains.
- Skilled in both front-end (React.js, Tailwind CSS, JavaScript) and back-end (ASP.NET MVC, Web Forms, Entity Framework) development, ensuring seamless integration and high-quality user experiences.
- Proven ability to translate complex business requirements into practical technical solutions, collaborating closely with stakeholders in agile teams.
- Passionate about continuous learning and exploring new technologies to drive innovation and performance improvements.
- Strong commitment to writing clean, maintainable code, ensuring data integrity, and delivering projects on time.

KEY AREAS OF TECHNICAL EXPERTISE

Full-Stack Development & .NET Proficiency

- Developed and maintained applications in **ASP.NET MVC** and **Web Forms**, providing robust support for both modern and legacy .NET systems.
- Proficient in C#, JavaScript, SQL, Entity Framework, React.js, Bootstrap, and Tailwind CSS.

Database Management & Reporting

- Managed MS SQL Server, Oracle, and MongoDB databases, ensuring data integrity and optimal query performance.
- Utilized ADO.NET and Entity Framework for data access, alongside Crystal Reports and Jasper for custom reporting.

Agile Delivery & Collaborative Development

- Delivered projects within agile-scrum frameworks, collaborating with cross-functional teams to achieve product milestones.
- Leveraged Git, Bitbucket, and Jira for source control, issue tracking, and documentation.

User Experience & Mobile-First Strategy

- Implemented responsive, mobile-first interfaces that increased user engagement by up to 80%.
- Worked closely with UX/UI teams to ensure designs were technically feasible and optimized across platforms.

PROFESSIONAL EXPERIENCE

Software Engineer
UBL (United Bank Limited), Lahore, Pakistan **Nov 2023 - Present**

- Designed, developed, and maintained responsive web applications using ASP.NET MVC, Web Forms, and .NET frameworks.
- Managed databases with ADO.NET, Entity Framework, SQL Server, and Oracle, ensuring data security and compliance.
- Built and supported core banking applications on Temenos Infinity, reducing manual processing for account openings by 95%.
- Conducted routine system maintenance and troubleshooting, maintaining 99% uptime.
- Collaborated with analysts, testers, and business teams to deliver user-focused digital banking solutions.

Junior Front End Web Developer
NexQuery (Pvt) Ltd, Lahore, Pakistan **Jun 2022 - Aug 2023**

- Developed multiple responsive websites and mobile applications from concept to deployment.
- Implemented mobile-first strategies that increased customer engagement by 80%.
- Translated UX/UI designs into robust, scalable code, ensuring high performance and cross-browser compatibility.
- Coordinated with product teams to launch new features, reducing release cycles by 60%.

EDUCATION

Bachelor of Business & Information Technology (BBIT) **2023**
University of Engineering & Technology, Lahore, Pakistan

PROFESSIONAL DEVELOPMENT

- Oracle Database Developer Tech Day
- Workshops on Emerging Technologies (UET Lahore)
- University Job Fairs & Career Seminars (UET Lahore)
